Summary.—Total amount of stone crushed: Lyell, 1,211 tons; Inangahua, 16,223 tons; total, 17,434 tons. Total yield: Lyell, 4,556 ozs.; Inangahua, 15,542 ozs. 9 dwts.; total, 20,098 ozs. 9 dwts.

So that the average to the Inangahua reefs for the past year is little short of an ounce to the ton, whilst the rich yields of the Maruia, Break o'Day, and Maloney's claims, at the Lyell, have brought the average there up to nearly 4 ounces to the ton. It would be very useful if a similar Act to that in force in Victoria and at the Thames was brought into force here, so as to compel the owners of machinery to make periodical returns to the Warden of the quantity of stone crushed, together with

It is satisfactory to know that of the reefs at Murray Creek and Boatman's, Anderson's, Wealth of Nations, Fiery Cross, and Just-in-Time have already paid all the expenses of their machinery and preliminary work in testing their mines; and that during the past year the Golden Fleece has paid £6,000 in dividends; the Just-in-Time, £4,800; the Fiery Cross, £1,800; the Invincible, £450; and the Wealth of Nations, £487.

The machinery at present at work in the district is as follows:—

Ajax Company, 15 heads, steam.
 Westland Crushing Company, 15 heads, steam.

3. Anderson's Company, 15 heads, water.

4. Energetic, 10 heads, water (about to be altered to steam).

5. Band of Hope, 10 heads, water (idle). Wealth of Nations, 15 heads, water.

7. Fiery Cross and Just-in-Time, 15 heads, water.

8. Alpine Company, 8 heads, water.
9. Little Wonder, 2 heads, water (5 heads adding).
