* There was no expenditure for the years 1881-82 and 1882-83. † At this date (31st March, 1885) the actual construction of defence works commenced. The expenditure in the colony prior to this date was—(a) For surveys and other expenses incidental to the visits of Colonel Scratchley, R.E., and Major Cantley, R.E., to report upon the defences of the colony; (b) the salaries and travelling expenses of those Imperial officers; (c) the landing, transport, storage, and care of R.M.L. guns and ammunition, and of torpedo-boats; and (d) other miscellaneous charges. ‡ This column represents the expenditure on all counts incurred since the actual construction of the defence works commenced, namely, from 31st March, 1885, to 30th September, 1887. § This column represents the sum of the separately-shown expenditures of the two periods assigned in the two preceding notes.

ARTHUR BELL, Resident Engineer (for the Engineer for Defences).
