TRIGONOMETRICAL SURVEY	
Trigonometrical Stations	shown thus @
Mountains of which meridional and perpendicular distances have been calculated	— " — M ^r Victor
Trigonometrical heights shown	— " — 8263.7
RECONNAISSANCE SURVEY	
Climometer heights shown in black	— " — 1285
Anemoid heights shown	— " — 3320
Points from which observations have been taken	— " — 5.0 ft
Camps	— " — 5.0 ft
Boundary of Provincial District	— " —
Clarke's proposed Railway	— " —
Muellers	— " —

Notes. The Okuru and Actor Rivers, Prince's Creek, Burke River and parts of Warren's and Franklin's Creeks have been fixed by rough step traverses and compass bearings. Observation points fixed from mountain peaks and from stations trigonometrically determined.

G. Mueller, Chief Surveyor.
Westland.

TOPOGRAPHICAL PLAN

OF

OKURU, ACTOR & BURKE COUNTRY

from Reconnaissance Survey of 1890.

Scale, Three miles to an Inch.
