APPENDIX, NO. 6

REPORT UPON VILLAGE-HOMESTEAD SETTLEMENTS FOR THE YEAR ENDED $$31_{\rm ST}$$ MARCH, 1895.

The following returns give full details of village-homestead settlements in each of the provincial districts of the colony for the year ended 31st March, 1895:—

During the past year twenty-four new settlements have been formed, seven in the North Island, and seventeen in the Middle Island. Two hundred and ninety-five new selectors have taken up sections of land, representing in the aggregate 7,616 acres,—an average of 25\frac{3}{4} acres to each settler.

The position of the settlements on the 31st March last was as follows:—

Number of settlements in the colony.

Number of settlements in the colony

Equivalent to an advance of 15s. 3d. per acre.
