(a)

(b)

(c)

(d)

(e)

(f)

(g)

The figure consists of 11 sub-diagrams labeled (a) through (k), each showing a 2D coordinate system with a feasible region (shaded area) and an objective function line. The diagrams illustrate the steps of the proposed algorithm for solving a linear programming problem. (a) shows the initial feasible region and objective function. (b) shows the first iteration with a new vertex. (c) shows the second iteration. (d) shows the third iteration. (e) shows the fourth iteration. (f) shows the fifth iteration. (g) shows the sixth iteration. (h) shows the seventh iteration. (i) shows the eighth iteration. (j) shows the ninth iteration. (k) shows the final optimal solution.

Age Group	2003	2004	2005
18-29	~85	~88	~92
30-49	~75	~78	~82
50-69	~65	~68	~72
70+	~55	~58	~62
