

SESS. II.—1897.
NEW ZEALAND.

REPORT ON THE GEOLOGY OF THE CAPE COLVILLE PENINSULA, AUCKLAND.

BY

ALEXANDER MCKAY, F.G.S., HON. M., N.Z. INST., GOVERNMENT GEOLOGIST.

Presented to both Houses of the General Assembly by Command of His Excellency.

CONTENTS.

| | Page. | | Page. |
|---|-------|--|-------|
| Introduction | 1 | Upper Miocene Formation— <i>continued</i> . | |
| Physical Geography | 1 | Beeson's Island Group— <i>continued</i> . | |
| Previous Geological Explorations | 6 | In the Waiwawa and Kauaeranga Valleys .. | 62 |
| By Von Hochstetter | 6 | In the Puriri, Omaha, and Hikutaia Valleys .. | 63 |
| By Sir James Hector, 1864–70 | 8 | Near Mackaytown, and thence to Te Aroha .. | 63 |
| By Captain Hutton | 12 | Relations of the Beeson's Island Group .. | 63–64 |
| By Sir James Hector, 1870 | 17 | Older Pliocene | 64 |
| By S. H. Cox, 1880–82 | 19 | Acidic Group | 64 |
| By A. McKay, 1883 | 26 | At Mercury Bay | 64 |
| By James Park, 1893 | 26 | On East Side of Cook Bay | 65 |
| By Professor Hutton, 1887 | 28 | Round Sources of Purangi Creek, thence to Stony | |
| By James Park, 1890 | 34 | Creek | 65 |
| Description of the Different Formations present .. | 40 | Stony Creek to Lower Tairua River | 65 |
| Table of Formations | 40 | Bull's Run to Upper Kauaeranga | 65 |
| Maitai Series | 41 | West of Table Mountain | 66 |
| Slate in the Northern Part of Peninsula .. | 41–42 | In Fourth Branch, Tairua Valley | 66 |
| Slate at Cabbage Bay | 42 | On Marsh's Farm, Upper Landing, Tairua River .. | 66 |
| Slate at Kennedy Bay | 43 | On the Main Divide south of Puriri Stream .. | 66 |
| Slate in the Tokatea Ranges | 43 | In the Middle Tairua and Wharekawa Valleys .. | 67 |
| Slate in the Success Ranges | 44 | Round Sources of Tairua and Hikutaia Rivers .. | 67 |
| Slate at the Tiki | 44 | In Upper Ohinemuri Valley | 67 |
| Slate in the Manaia Valley | 44 | Between Waitekauri and Owharoa | 67 |
| Slate, Kiriti Bay to Tapu Creek | 45 | Near Mackaytown | 68 |
| Slate in Kuaotunu Peninsula | 45 | Forming Hikurangi Mountain | 68 |
| Metalliferous Deposits of the Slate Formation .. | 46 | Age and Relation of Acidic Group | 68 |
| Remarks on the Relations of the Older Rocks of Cape | | Where Gold-bearing, yielding Opals, &c. .. | 69 |
| Colville Peninsula | 47 | Its Building-stones, Spherulite, Perlite, &c. .. | 69 |
| Cretaceo-tertiary or Coal-bearing Formation .. | 47 | Newer Pliocene or Pleistocene | 70 |
| Description of the Beds at Cabbage Bay .. | 48 | Kauaeranga Beds | 70 |
| Their Relation to the Volcanic Series | 49 | Recent | 70 |
| Volcanic Formations | 49 | Dyke-intrusions | 70 |
| Thames-Tokatea Group | 49 | Thermal Springs, Sinter Deposits | 71 |
| Thames-Coromandel Area | 50 | Faults | 73 |
| Puriri Area | 54 | Gold | 73 |
| Karangahake Area | 54 | Concluding Remarks | 75 |
| Te Aroha Area | 55 | Silver-bearing Lodes, Great Barrier Island .. | 75 |
| Kapanga Group | 55 | General Geological Sketch of Great Barrier Island .. | 75 |
| Coromandel Area | 56 | Extract from Professor Hutton's Report .. | 75 |
| Neavesville Area | 58 | Rocks compared with those of Cape Colville Penin- | |
| Southern Area | 59 | sula | 76 |
| The Kapanga Group compared with the Thames- | | Area specially examined | 76 |
| Tokatea Group | 59 | The Reefs | 78 |
| Upper Miocene Formation | 60 | Proprietary and Premier Claims | 78 |
| Beeson's Island Group | 60 | Aotea No. 2 | 78 |
| Beeson's Island to Kiriti Bay | 60 | Iona Claim | 78 |
| At Cabbage Bay | 60 | Kaitokai Claim | 79 |
| Stony Bay to Port Charles | 61 | Great Barrier Claim | 79 |
| Kennedy Bay to Whangapoua | 62 | Ryan's Freehold | 79 |
| Whangapoua to Kuaotunu | 62 | Egerton's Claim | 80 |
| In the Mahakirau Valley | 62 | Mount Argentine, &c. | 80 |
| | | Great Barrier Excelsior and Other Claims .. | 80 |

ERRATA.—Page 37, fourth paragraph, third-last line, for "scalano hendrons," read "scalenhedrons." Page 41, third paragraph from bottom, first line, for "Thames, Port Charles," read "Thames for Port Charles."
