I have the honour to report for the information of the Hon. the Minister of Education that so soon as the Council of the Victoria College was formed and called together steps were taken by it for the appointment of Professors in order that the work of the college might be begun.

Four Professors were appointed—Classics: Mr. J. Brown, M.A. English: Mr. H. Mackenzie, M.A. Mathematics: Mr. R. C. Maclaurin, M.A., L.M. Chemistry and Physics: Mr. T. H. Easterfield, M.A., Ph.D.

The Professors reached the colony at the end of March, and, as soon as practicable (8th April), students were enrolled and work begun.

Subsequently a lecturer on political economy was appointed—Mr. D. Ritchie, B.A., W.S.

Lectures are given on the following subjects: English, Latin, French, mental science, jurisprudence and constitutional history, physics (with practical work), mechanics, mathematics, chemistry (with practical work), and political economy.

The Victoria College Act set apart as an endowment for the College a parcel of land comprising 4,000 acres in the Nukumarū Survey District, but the said land is not at present producing any revenue.
