

PART B—SURVEYS AND CERTIFICATES

REGULATION 6

Inspection and Survey

The inspection and survey of ships, so far as regards the enforcement of the provisions of the present regulations and the granting of exemptions therefrom, shall be carried out by officers of the country in which the ship is registered, provided that the Government of each country may entrust the inspection and survey either to surveyors nominated for the purpose or to organizations recognized by it. In every case the Government concerned fully guarantees the completeness and efficiency of the inspection and survey.

REGULATION 7

Initial and Subsequent Surveys of Passenger Ships

(a) A passenger ship shall be subjected to the surveys specified below:—

- (i) A survey before the ship is put in service.
 - (ii) A periodical survey once every twelve months.
 - (iii) Additional surveys, as occasion arises.
- (b) The surveys referred to above shall be carried out as follows:—
- (i) *The survey before the ship is put in service* shall include a complete inspection of its structure, machinery and equipments, including the outside of the ship's bottom and the inside and outside of the boilers. This survey shall be such as to ensure that the arrangements, material, and scantlings of the structure, boilers and their appurtenances, main and auxiliary machinery, electrical installation, radio installation, life saving appliances, fire detecting and extinguishing appliances, and other equipments, fully comply with the requirements of the present Convention, and of the laws, decrees, orders and regulations promulgated as a result thereof by the Administration for ships of the service for which it is intended. The survey shall also be such as to ensure that the workmanship of all parts of the ship and its equipments is in all respects satisfactory.
 - (ii) *The periodical survey* shall include an inspection of the structure, boilers, machinery and equipments, including the outside of the ship's bottom. The survey shall be such as to ensure that the ship, as regards the structure, boilers and their appurtenances, main and auxiliary machinery, electrical installation, radio installation, life saving appliances, fire detecting and extinguishing appliances, and other equipments, is in satisfactory condition and fit for the service for which it is intended, and that it complies with the requirements of the present Convention, and of the laws, decrees, orders and regulations promulgated as a result thereof by the Administration.
 - (iii) *A survey either general or partial*, according to the circumstances, shall be made every time an accident occurs or a defect is discovered which affects the safety of the ship or the efficiency or completeness of its life saving
