6. <i>Jute</i> —											(6) F.A.O. World Fibre Survey, and Fibre Bulletin. Pre-war = 1934-38. Indian production includes imports from Nepal. Exports are from whole sub-continent and exclude trade between India and Pakistan. Pakistan, having no jute mills, exports almost its entire output, of which it is estimated that in 1948 and 1949 four-fifths went to India and the rest overseas. Figures refer to crop year ending 30th June of year mentioned.
