CIRCULAR.

The Manager, Industrial School.

Education Department, Wellington, 10th July, 1903.

For the purposes of a parliamentary return please let me have, *with the least possible delay*, a list showing the names of imbecile inmates belonging to your industrial school, and their ages.

The term "imbecile" is to be taken to include:—

- (1.) Defectives: That is, those who by special training in some particular direction may be fitted to earn their own living.
