‡ Column 10 gives the amounts that would be payable under the proposals of the Committee, omitting item (h), namely, £3,713, in Table A and in the item (a) in the same table, lowering the rate from 3¼ per cent. to 3 per cent., by which £4,072 is saved.

§ A comparison of the figures in columns 9 and 12 will show that the grants made in 1903-4 were greater, except in five cases, than the grants made in 1902-3. [In five cases the grants for each year were the same; the addition to the sum proposed to be paid in 1903-4 is entered in column 11.]
