Cabinelmaking.—The work of this section has chiefly been directed to drawing and design. Some excellent furniture studies in colour were executed by students of this department in the applied design

Teachers and Pupil-teachers.—Classes were held on Saturday mornings as well as in the evenings for elementary drawing, design, brushwork, blackboard, modelling, and elementary still-life work. The accommodation of the school was severely taxed on Saturday mornings. A large room for blackboard work is urgently needed.

Normal College Students.--Special classes were held on Tuesday afternoons for blackboard, freehand

and model drawing, and useful work was done by the students in this section.

Arts and Crafts Guild.—The Arts and Crafts Guild was continued on the same lines as those of former years, with the exception that, in addition to the monthly lectures, a monthly members' working-night was commenced. A subject was set, and the members illustrated the subject in various mediums. This addition proved very successful, and many excellent compositions were the result. The Guild's membership numbers upwards of 200, many of which are ex-students of the school.

Staff. -No resignations have been received during the year. The staff now numbers fourteen, all

of whom worked loyally in the interests of the school.

Thanks are due to Messrs. William Sey and J. W. Gibb for prizes kindly donated for painters' and decorators' work and painting, and also to those gentlemen who assisted in making the monthly meetings

of the Guild so instructive by lectures and demonstrations.

In conclusion, I have to thank the Board—firstly, for instituting two scholarships, value £25 each one for pure art and one for applied art, which I am sure will be keenly competed for during the next year, and which will, perhaps, form a stepping-stone to a New Zealand Government travelling art scholarship, which is urgently needed if our art students in the Dominion are to keep pace with those in Australia, where such scholarships have been available for many years past, and have been the means of gaining for Australia a name for producing artists and sculptors of the first rank; secondly, for granting me leave of absence to visit the art schools of Europe during the coming year, and also for the grant to purchase specimens of the best students' works in the schools I visit.

ACCOUNTS AND BALANCE-SHEET.
