EDUCATION: ANNUAL EXAMINATIONS.

[In continuation of E.—8, 1909.]

Presented to both Houses of the General Assembly by Command of His Excellency.

The INSPECTOR-GENERAL of SCHOOLS to the Hon. the MINISTER OF EDUCATION.

SIR,—

Education Department, Wellington, 6th July, 1910.

I have the honour to present the following report of the annual examinations conducted by the Department for the various purposes of Junior National Scholarships, Junior Free Places in secondary schools, district high schools, and technical schools, Senior Free Places in secondary schools and district high schools, for admission to or promotion in the Civil Service, and for teachers' certificates. The examinations were held between the 20th and the 29th November, 1909, on the 1st and 2nd December, 1909, and between the 5th and the 19th days of January, 1910, at the thirteen towns which are the seats of Education Boards, and also at Aratapu, Arrowtown, Ashburton, Balclutha, Carterton, Chatham Islands, Dannevirke, Eltham, Gisborne, Gore, Hamilton, Hastings, Hawera, Lawrence, Levin, Marton, Masterton, Naseby, Oamaru, Opatiki, Pahiatua, Palmerston North, Paparoa, Patea, Pukekohe, Rangiora, Reefton, Riverton, Stratford, Taihape, Takaka, Tapanui, Tauranga, Te Aute, Thames, Waihi, Waimate North, Waimate South, Wairoa, Westport, Whangarei.

The total number of candidates entering for the November-December and January tests jointly was 7,267, or 1,150 more than in the preceding year. Of this total the number actually present at examination was 6,508, the difference (759) being accounted for partly on the usual grounds, and partly by the operation of a new clause in the Regulations for Senior Free Places, introduced in 1908, under which a number of candidates recommended on an accrediting principle therein embodied were exempted from examination, and accordingly did not present themselves. In the several examinations the following were the numbers present: For the Junior National Scholarship and Junior Free Place Examination, 2,214; for the Civil Service Junior and allied examinations, 2,369; for the Civil Service Senior Examination, 443; for Certificate Examinations, 1,482.

The Department's examination for Junior National Scholarships is now used by all the Education Boards of the Dominion for the award of their Junior Scholarships, superseding thus without exception any examination locally conducted in earlier years for this purpose. For the award of their Senior Scholarships the Boards commonly, but not exclusively, use the Civil Service Junior Examination. Apart from this extension of its functions, the Civil Service Junior Examination is employed for a variety of purposes. Either in its proper competitive form, or with certain modifications in selected subjects to meet the needs of a non-competitive qualification, it is thus used not only as an entrance examination for the Civil Service of the Dominion, but as a scholarship examination, an examination for the Senior Free Place qualification in secondary schools and district high schools, an examination for pupil-teachers of the second or third years, and a qualifying examination for the probationer appointments recently instituted under the provisions of the Education Act Amendment Act, 1908.

The following table gives a comparative statement of the number of candidates examined under the principal groupings during the past five years:—

	1905-6.	1906-7.	1907-8.	1908-9.	1909-10.
Junior National and Education Board Scholarships and Junior Free Places	790	1,458	1,475	1,765	2,214
Civil Service Junior, Senior Free Places, Education Board Senior Scholarships, First Pupil-teachers	1,305	2,123	2,173	2,158	2,369
Teachers D and C	749	1,051	1,184	1,223	1,482
Civil Service Senior	141	183	231	373	443
	2,985	4,815	5,063	5,519	6,508

The results of the Junior National Scholarship Examination were made known on the 11th January, those of the Civil Service Junior Examination on the 14th January, those of the Civil Service Senior Examination on the 16th February, those of the examination for the Education Boards' Senior Scholarships and for Senior Free Places on the 14th January, and those of the teachers' examinations on the 21st February.

Of the total number of candidates that sat for the Junior National Scholarship and Junior Free Place Examinations, 1,482 were candidates for scholarships, and 732 for free places only. On the result of the examination 795 attained a scholarship qualification, and (including this number) 1,102 qualified for free places in secondary schools.

The highest percentages of marks gained in the various subjects of this examination were as follows: English, 96; arithmetic, 100; geography, 89; general paper, 85; drawing, 94. The highest percentage gained by any one candidate on the whole examination was 86.

Of the 2,369 candidates examined at the Civil Service Junior Examination in its varied applications, 1,421 were candidates under the provisions of the Civil Service Reform Act. In this class 800 of the number passed the examination, 220 of them with credit. Pupil-teacher candidates in the service of Education Boards numbered 52, and there were also 380 competitors for Senior Board Scholarships, inclusive of 4 and 116 respectively who were at the same time candidates for the Civil Service. In the whole of the examination the candidates that passed, and thereby, whether so specially desired or not, satisfied the examination requirements for Senior Free Places in secondary schools or district high schools, totalled 1,278. This examination in its non-competitive form will hereafter be known as the "Intermediate Examination."

Of the 443 Civil Service Senior Candidates, 180 came up to complete examinations in which they had already been partially successful. In all 124 passed the whole examination, and the work of 203 in addition was accepted by the Department in two or more subjects towards the full qualification.

The numbers of candidates that entered for different stages of the Teachers' Certificate Examinations, with their status at the time of entry, are shown in the subjoined table:—

Examinations previously passed.					Candidates for the Whole or Part of the Class C Examination.	For Class D.	For Class D, with the Matriculation Examination of December, 1909.	For Completion of Partial Pass for Class D.	For Special Certificates in Single Subjects.	Totals.

[NOTE.—The columns of the table are not mutually exclusive, a number of the candidates being entrants for more than one class of certificate.]

Of the total number of candidates in this group, 409 completed the requirements as follows: 4 for Class A, 13 for Class B, 160 for Class C, and 232 for Class D; 459 others obtained "partial pass"—1 for Class A, 188 for Class C, 270 for Class D. There were 213 whose work in a section consisting of one or more separate subjects was accepted towards Class C by the Department, and 401 candidates, besides 193 absentees, failed to improve their status.

The joint expenses of both groups of examinations amounted to £4,931 16s. 7d., exclusive of the cost of printing and of clerical work. The fees paid by candidates totalled £3,657 5s.

Attached to this report are lists of the examiners, and of the successful and partially successful candidates. The examination-papers, with an appendix containing criticisms and suggestions made by the examiners, have been printed separately.

I have, &c.,
G. HOGBEN,
Inspector-General of Schools.
