1910. NEW ZEALAND.

THE POLICE FORCE OF THE DOMINION

(ANNUAL REPORT ON).

Presented to both Houses of the General Assembly by Command of His Excellency.

The Commissioner of Police to the Hon. the Minister of Justice.

SIR,—

On the retirement of Mr. Dinnie, on the 31st of December last, the Government decided to combine the offices of Under-Secretary for Justice and Commissioner of Police. I therefore took over the administration of the Force, in addition to my other duties, and I now submit the annual report as required by the Police Regulations.

STRENGTH OF FORCE.

On the 31st March last the strength of the Force was 775 of all ranks, being an increase of 4 during the year. The total is made up as follows:—

| v | | | | | | |
|--------------------------|-----------|-----|----------|-----|-------|------------------|

| District constables | | | | | | 19 |
| Native constables | | | • • | | | 9 |
| Troop horses | | | | | | 38 |

STATIONS.

New stations have been opened at Fendalton, Frankton, Hikuai, Islington, Kirikiriroa, Rimu, Tewera, Tokomaru Bay, Waikaremoana, Wakefield, and Wellsford.

The district constable at Portobello has been replaced by a regular member of the Force, and the following stations have been closed: Broad Bay, Frasertown, Horopito, Kanieri, Kerepehi, Port Albert, Spring Grove.

The station hitherto known as Sheffield is now called Annat. and that known as Tairua is now called Hikui.

CASUALTIES.

The following are the casualties for the year ended the 31st March last: Retired under Police Provident Fund Act, 14; died, 3; resigned voluntarily, 17; dismissed, 8; discharged, 1; called upon to resign, 20: total, 63. This is 4 more than in the preceding year.

CRIMINAL STATISTICS.

The criminal statistics (Appendix A) deal with all offences reported to the police during the year ended the 31st December last, and show an aggregate net increase of 420 on the figures of 1908. The proportion of offences to the population was 2.32 per cent. as against 2.33 the previous year.

It will be noticed that the increase has been mostly confined to the less serious form of crime, such as assaults, breaches of the peace, drunkenness, sly-grog selling and vagrancy, whilst there has been a gratifying decrease under the heading of burglary and certain classes of theft.

The percentage of arrests or summonses resulting from all offences reported during the year under review is 95.61, the figures of the preceding year being 95.63.

The following return shows the number of offences reported in each Police District during the year, the number of cases in which arrests or summonses resulted, and the number in which no prosecution followed :-

Drunkenness.

There has been an increase of 314 in the number of persons prosecuted for drunkenness during the year as compared with the previous year.

From the following table it will be observed that 40.89 per cent. of the males and 73.78 per cent. of the females had previous convictions recorded against them, and 7.45 per cent. of the males were not permanent residents in the Dominion.

In attempting to draw conclusions from these figures it should be borne in mind that the number of charges does not represent the number of distinct and separate persons charged, as repeated charges against the same person are included in the total. Similarly, the number of persons shown as not previously convicted cannot be guaranteed as strictly accurate. A man may be convicted of drunkenness in, say, Auckland one week and in Dunedin the next, and unless the Dunedin police were aware of the previous conviction, which may or may not be the case, he would be shown in the Dunedin return as not previously convicted. I point this out as a caution against attempting to deduce, from the statistics given, conclusions that may not be justified by the actual facts.

PROSECUTIONS AGAINST HOTELKEEPERS.

The number of prosecutions (213) against hotelkeepers during the year shows an increase of 36 as compared with the preceding year.

SLY-GROG.

There were 235 prosecutions during the year for sly-grog selling, resulting in 154 convictions,

against 158 prosecutions and 127 convictions during the preceding year.

The difficulty in obtaining evidence in support of charges of sly-grog selling is increased by the disinclination of the general public to afford the police any assistance in this respect, and for this reason it is found necessary to resort to methods which are distasteful both to the public and the police. is, however, no alternative unless the law-breakers are to be allowed to go their own way unchecked.

H.--16.

The fines imposed on sly-grog sellers during the year 1909 amounted to £2,358 15s., as against £1,749 15s. in 1908.

The direct cost to the Dominion in detecting and prosecuting sly-grog sellers during the year was £1,090 19s. 6d., this being £1,267 15s. 6d. less than the amount of fines imposed.

GAMING OFFENCES.

There were 239 prosecutions, resulting in 208 convictions, during the year under the gaming laws, against 213 prosecutions and 184 convictions in 1908.

The question of licensing bookmakers will have to be very seriously considered, and some restriction be placed upon the many undesirable characters who under the present law follow the profession of bookmaking.

FINGER-PRINT BRANCH.

On the 31st March last the finger-print collection consisted of the impressions of 9,919 offenders, being an increase of 1,201 on the previous year.

During the year 140 offenders, whose antecedents were unknown to the police of the districts in which they were in custody, were, by means of their finger-impressions, identified as previously convicted persons, showing an increase of two over last year.

The following table shows increase of the finger-print collection, and prisoners traced thereby for the past six years.

| | | Year. | | Number of Prints in Col- lection. | Increase on Previous Year. | Prisoners traced as Previous Offenders. |
|------|------|-------|------|---|-------------------------------|---|
| 1905 | | | | 4,200 | 700 | 72 |
| 1906 | | | | 5,000 | 800 | 88 |
| 1907 | | | | 6,151 | 1,151 | 104 |
| 1908 | | | | 7,622 | 1,471 | 123 |
| 1909 | | | | 8,718 | 1,096 | 138 |
| 1910 | | | | 9,919 | 1,201 | 140 |

Finger-prints of persons in custody here have been identified in each of the Australian States, in Cape Town, London, and Denmark as those of persons previously convicted in those places, while prints of persons in custody in the various States of Australia and South Africa have been identified here as those of persons previously convicted in New Zealand.

Of forty-seven finger-marked articles taken possession of by police in the investigation of various offences eleven prosecutions resulted, convictions being recorded in all cases.

As an instance of the practical assistance the branch is to the general police, a series of burglaries took place in Wellington during the latter part of last year, and from finger-prints left behind by the offenders it was clearly demonstrated that the same persons were responsible for the whole of the burglaries, thus narrowing the scope of the inquiry. The offenders were subsequently arrested and convicted.

The photographic portion of the branch is still working well, during the year 628 photographs being finished, at an average price of just under 2d. each.

CANDIDATES FOR FORCE.

Sixty-seven men were taken on during the year, their nationalities, religions, and occupations being as follows:—Nationalities: Australia, 8; England, 6; India, 1; Ireland, 5; New Zealand, 41; Scotland, 5; West Indies, 1. Religions: Baptist, I; Church of England, 25; Methodists, 3; Presbyterians, 20; Roman Catholics, 15; Wesleyans, 3. Occupations: Artillerymen, 3; bakers, 2;

POLICE PROVIDENT FUND.

On 31st March last the amount standing to the credit of the fund was £32,204 7s. 1d., being an increase on the previous year of £390 19s. 3d. On the same date there were on the fund 3 ex-Inspectors, 1 ex sergeant-major, 21 ex-sergeants, 55 ex-constables, 5 ex-detectives, and 2 widows of deceased constables, their aggregate annual allowances being £8,231 8s.

This fund has now been merged in the Public Service Superannuation Fund.

Since the Police Provident Fund Act, 1899, came into force the Government have saved the sum of £22,606 8s. 11d. in the form of retiring-allowances which would no doubt have been paid had it not existed.

First Aid to the Injured.

During the year ended March, 1910, 61 probationers presented themselves, at the conclusion of their course of training at the depot, for examination in "first aid to the injured," the examinations being held under the auspices of the St. John Ambulance Association.

Of the 61 men who sat, all passed.

The maximum number of marks was gained in seven cases, the average of those who passed being 84.69. (Maximum, 100; bare pass, 50.)

The lecturer was in each case Dr. Henry, Police Surgeon, and the examiners different medical men appointed by the Association.

The New Zealand Police Force.

The following return shows the growth of the Department, the continued increase of the population, and the total number of offences (irrespective of by-law offences) reported, and in which arrests or summonses resulted, each year since 1877, prior to which date each province in the colony had its own Police Force, and reliable data are not available:—

In addition to the strength of the Force as shown above, there are 19 district constables, 9 Native constables, 4 police surgeons (one in each city), 4 matrons (one in each city), and 38 troop horses.

INSPECTORS' REPORTS.

Extracts from the annual reports of the Inspectors in charge of districts are hereto annexed.

I have, &c.,

F. Waldegrave, Commissioner of Police.

EXTRACTS FROM ANNUAL REPORTS OF OFFICERS IN CHARGE OF DISTRICTS.

INSPECTOR CULLEN, AUCKLAND DISTRICT.

The casualties in the Force in this district during the year ended the 31st March last were as follows: 1 sergeant died and 11 constables resigned.

New stations were opened at Kirikiriroa (Hamilton East), Frankton, and Wellsford, and Port Albert Station was closed.

New stations will need to be opened at Remuera, Mount Albert, Richmond (Grey Lynn), and Takapuna. The opening of a new station at Remuera has already been approved, but a constable cannot be stationed there till such time as we can secure a house for him to reside in.

The criminal statistics for the district for the year ended 31st December, 1909, show an increase in minor offences such as drunkenness, common assaults, cruelty to animals, failing to support parents, obscene language, petty thefts, and vagrancy. There has been a marked decrease in cases of house-breaking, &c., as compared with the year 1908.

The conduct of the senior members of the Force in the district has been very satisfactory, but that of some of the junior hands who came here from the depot or on transfer from other districts has been quite the reverse; a good few of these undesirables are now out of the service.

INSPECTOR KIELY, THAMES DISTRICT.

During the year ended 31st March, 1910, the district has been almost free from serious offences. The new police buildings here were handed over and taken possession of on the 16th August last, so that the members of the Force here are now well provided for.

New offices, which were much needed, have also been provided for the police at Rotorua, the

building being a substantial four-roomed cottage, containing two offices and two bedrooms.

There are two stations in the district-Rotorua and Opotiki-where the strength requires to be

increased by an additional constable.

The conduct of the members of the Force during the year has, on the whole, been very good, with the exception of one or two cases, where just punishment has been inflicted.

Inspector Dwyer, Napier District.

The return of crime for the year ending 31st December last shows that 1,994 offences were reported to the police, and out of that number 1,930 were detected. This shows a substantial decrease in crime as compared with the returns for the previous year when 2,311 offences were reported. The decrease is spread over all the stations, Dannevirke showing the largest decrease, there being 169 less offences reported there than in the previous year. This decrease is accounted for by the closing down of several of the sawmills and the throwing-out of employment of a large number of hands, who had to seek for work elsewhere.

In drunkenness alone there was a decrease of 103 druing the year.

The conduct of the sergeants and detectives has been good during the year, and so has that of

the constables with but few exceptions.

The whole of the district continues to prosper, and Gisborne and surrounding district are increaisng in population so rapidly that an additional constable is much needed for the Town of Gisborne, as one man is almost continually employed on relieving and escort duty.

INSPECTOR WILSON, WANGANUI DISTRICT.

The strength of the Force is 76-1 Inspector, 1 Sub-Inspector, 8 sergeants, 63 constables, and

3 detectives—a total of 76, and 1 district constable.

Settlement along the Main Trunk Line, the Wanganui River, Whangamomona, and the Mokau New settlers are constantly taking up land. Bushfelling, grass-sowing, and districts continues. fencing continue to give employment to a large number of men. On the Stratford-Ongaruhe construction works some 600 men are employed.

At Wanganui at least one more constable is required, I consider any town the size of Wanganui should have a watchhouse-keeper on duty at the station all night. This we cannot do without seriously

interfering with the working of the town at night.

At Palmerston North I think a constable could be well employed as plain-clothes constable. work of the detective is too great to be thoroughly done, and he needs the assistance suggested.

The population of the district is approximately 140,000; the present Force is 76. This works out at one man to each 1,842 persons; so that on a population basis we should have many more men. The conduct of the men, on the whole, has been very good, and, as a rule, they have been zealous,

careful, and attentive in the discharge of their duties.

The wholesale licenses granted at Raetihi, Ohakune, Rangataua, Awakino, and Mokau will be discontinued at the end of June next. From my own knowledge, and reports from reliable persons, these licenses are worse than the open bar, and cause more drunkenness and rowdyism amongst the younger men.

INSPECTOR ELLISON, WELLINGTON DISTRICT.

The authorised strength of the Force in this district on the 31st of Ma ch last was 153 and the actual strength 151, including 1 constable who has been absent for several months in other districts on special duty.

The increase to the authorised strength during the year was 1 acting detective and 2 constables

to the head station at Wellington.

The Offences Return furnished in January shows the total number of offences reported during last year was 5,508, a decrease of 357 on the previous year. The number of undetected offences was 200, as against 222 for the previous year. Many of the undetected offences were petty thefts.

On the whole, the year's work shows a fairly good result.

The decrease in offences may be to some extent attributed to the fact that money was not so plentiful for spending purposes in the community as for a few years previously, but with a large moving population some offences may vary considerably at different periods without any apparent reason.

The conduct of the Force, as a rule, was good, and whilst some men do not show a great deal of tact and energy, and are slow to learn their work, the past year shows a great deal of creditable work

and a satisfactory result.

The detective staff has worked well and energetically, and the same can be said of many of the uniform service, there being, as a rule, a general desire to perform onerous and often unpleasant duties in a straightforward loyal manner.

INSPECTOR BLACK, GREYMOUTH DISTRICT.

The strength of the Force on the 31st March last was 1 Inspector, 5 sergeants, 31 constables, and 1 detective; total, 38, being 1 constable short of the authorised strength of 39. The strength has been increased by an extra constable at Westport.

The conduct of the men in this district, as a whole, has been good during the last twelve months, although in a few instances a number of constables have been fined for breaches of Police Regulations and neglect of duty.

The criminal statistics for the year show an increase of 50 on previous year's total, made up principally by drunkenness, obscene and profane language, and other offences of a less serious nature.

The total offences reported during the year were 804, out of which number 770 are accounted for by arrests and summonses, leaving 34 undetected, or about 4 per cent. on the whole.

INSPECTOR GILLIES, CHRISTCHURCH DISTRICT.

On the 31st March last the strength of the Force was 142 men made up of all ranks as follows: Inspector, 1; Sub-Inspectors, 2; station sergeant, 1; sergeants, 14; constables, 113; detectives, 7; acting-detectives, 4. There is a surgeon and matron attached to Christchurch Station.

The total number of offences reported during the year ending 31st December, 1909, was 3,652, and the number of persons apprehended or summoned was 3,492. An increase of 348 offences is shown in comparison with the return for the year 1908.

During the year fines were imposed in cases prosecuted by the police for sly-grog selling amounting in the aggregate to £242. Ten cases were dealt with at Ashburton and sixteen cases at Oamaru. The utmost viligance by the local police in no-license districts is required to obtain evidence against offenders, as residents do not care to become informers or assist the police in proceedings against sly-grog sellers.

The conduct of the men has been, on the whole, satisfactory. I am pleased with some of the younger constables, who are taking an interest in their duty. Some of the recruits are behaving in a manner very creditable to themselves and to the Department.

INSPECTOR O'BRIEN, DUNEDIN DISTRICT.

On the 31st March last the strength of the Force in this district was, 1 Inspector, 1 Sub-Inspector, 1 station sergeant, 11 sergeants, 75 constables, 1 chief detective, 3 detectives, and 2 acting detectives, 1 police surgeon, and 1 matron.

The number of offences (excluding breaches of by-laws and other trivial matters) reported to the police during the year ended 31st December last was 2,116, as compared with 2,213 for the previous year, showing a decrease of 97; and the number of persons apprehended or proceeded against by summons during the year was 1,882. I regret again to have to remark that juveniles (persons under sixteen years) and also persons under the age of twenty-one years are responsible for many of the offences of the more serious nature.

During the year there were 14 prosecutions for sly-grog selling, resulting in 9 convictions. The fines imposed amounted to £205. A difficulty in obtaining the necessary evidence for conviction in such cases still obtains. Many respectable residents who willingly assist the police in the detection of other offences refrain from giving assistance in this connection, on the score that they do not like the risk of being regarded as "informers."

During the year the conduct of members of the Force of both branches of the service, has, with very few exceptions, been exemplary. On nearly all occasions (both day and night) sergeants and constables have been found most attentive to their respective duties, which are many. The detective branch of the service has during the year done good work, including the solving of many questions as to persons responsible for the commission of offences, both locally and in other parts of the Dominion, during the preceding year.

INSPECTOR MITCHELL, INVERCARGILL DISTRICT.

During the year ended 31st December last 520 offences were reported, being a marked decrease on the number—620—for the preceding year. Of these, 484 were detected, being about 93 per cent.

There were 170 cases of drunkenness, inquiry showing that the supplies of liquor had been obtained in a legitimate way from outside the no-license area.

There were 12 convictions for sly-grog selling, and fines totalling £103 imposed.

The strength of the Force in this district on the 31st of March-last was 1 Inspector, 4 sergeants, 31 constables, 1 detective, and 1 district constable.

The conduct of members of the Force, with one or two exceptions, has been good, and they have been attentive to their duty, as evidenced by the satisfactory percentage of detected offences.

Casualties here have been 3 constables transferred to and 2 from other districts.

2—H. 16.
