## ANNUAL REPORTS OF DOMAIN BOARDS.

The UNDER-SECRETARY FOR LANDS to the Right Hon. the MINISTER OF LANDS.

Department of Lands, Wellington, 24th July, 1911.

I have the honour to transmit herewith a synopsis of the annual reports of Domain Boards for the year ended 31st December, 1910, which have been furnished in accordance with section 45 of the Public Reserves and Domains Act, 1908.

The reports, as in previous years, indicate steady improvement of the public domains of the Dominion.

Some delay in the receipt of reports has been occasioned by a number of Domain Boards being under the impression that by forwarding a copy of the annual report and balance-sheet to the Audit Department the provisions of the Act have been complied with, overlooking the fact that a copy should also be sent to the Minister of Lands.

The following table shows the number of domains in the various land districts, together with the total areas:—

Salt-water baths have been installed since last year, and are proving a great success. The swimming-baths have been frequented by a very large number of bathers. The St. Clair beach has not improved during the year, westerly winds having caused a continuous scour. Unusually heavy pedestrian traffic has also tended to reduce the level of the beach for a distance of some chains. The progress at St. Kilda beach has been slow compared with past years, caused by the absence of south-west winds, which usually bring up a supply of sand. Tracks have been cut through the lupins, and, where possible, covered with clay. Surf bathing has become a popular pastime. It is proposed to have an area prepared for tree-planting, and also to plant marram-grass and lupins where required. Reclamation and general maintenance will also be continued.
