EDUCATION: SUBSIDIES PUBLIC LIBRARIES Т0

(PAPERS RELATING TO DISTRIBUTION OF).

[In continuation of E.-10, 1909.]

Presented to both Houses of the General Assembly by Command of His Excellency.

1. Extract from the Thirty-fourth Annual Report of the Minister of Education. Parliament did not appropriate any sum in 1909-10 for payment of subsidies to public libraries. Last session, however, a vote of £4,000 was granted—an increase of £1,000 over those of previous years. The vote was first granted twenty-seven years ago, and amounted to £6,000. In 1886 the amount was reduced to £4,000. For twelve years after this date no grant was made, but in 1898 a vote of £2,000 was passed by Parliament. The following year it was increased to £3,000, and this amount has been regularly voted each year until 1908.

The increase in the amount of the vote is due to the increased income of libraries participating. During the last ten years the number of libraries has increased from 349 to 405, and the income

on which subsidy was granted from £9,993 to £15,954.

In the New Zealand Gazette of 3rd November, 1910, a notice was inserted stating that £3,000 was available for distribution, and shortly afterwards another amount of £1,000 was voted by Parliament, making £4,000 altogether. Forms of application were sent to all libraries known

The method of distribution of the vote was the same as that adopted in previous years—viz., a nominal addition of £25 was made to the amount of the income of each library derived from subscriptions, donations, and rates, provided that the receipts for the year were not less than £2, and the vote was distributed according to the amount thus augmented; but no library received credit for a larger income than £75—that is, in no case did the augmented amount on which distribution was based exceed £100. In accordance with the Gazette notice, the day appointed for the distribution of the subsidy was the 3rd February, 1911, and the amount of the vote was divided among the 405 libraries from which applications, each accompanied by a statutory declaration on the proper form, had been received at that date. The vote, as thus dealt with, afforded a subsidy of 4s. 738d. in the pound on the nominal income, and the subsidies ranged from £6 4s. 7d. to £23 ls. 7d. The number of libraries participating in the vote shows a decrease of thirty-two as compared with the number aided in February, 1909.

In order that the purpose intended to be served by the vote may be attained, it is made a condition for participation that the whole of the subsidy granted to each library in the previous

year shall have been expended in the purchase of books.

The following table shows the distribution according to the education districts:

1. A library to be entitled to a subsidy must be public in the sense of belonging to the public, and of not being under the control of an association, society, or club whose membership is composed of a section of the community only, and if within a borough it must be open to the public free of charge. The receipts for the year from subscriptions and donations must not have been less than £2, exclusive of moneys received from endowments, or from Government, or from Borough or County Councils, or for special building purposes, or as rent, hire, or consideration for the use of any room, or building, or land belonging to the institution, in respect of none of which will subsidy be allowed. The net proceeds of concerts, lectures, or other entertainments on behalf of the current expenses of the library will be regarded as voluntary contributions. A subsidy will not be given to more than one library in the same town.
