Librarian—B. H. Ward, B.A.

REPORT (ABRIDGED).

Pursuant to section 44 of the Victoria College Act, 1905, the Council presents the following

report for the year 1920-21:-

The work of the year has been carried on vigorously and successfully in the various departments of the College. The number of students has shown a large increase over that of 1919, and the numbers of those who have passed sections in their various degrees have been well maintained. It is sometimes asked, "What is the University College doing?" A great part of the work of such an institution as this must be devoted to the training of those who are to carry on the life of the community in education, law, commerce, and science. The extent to which we are succeeding in this respect is indicated by the many important positions to which former students of the College have attained during the last year. In addition, of our own College staff three of the Chairs are occupied. by former students of the College, and with few exceptions all the assistants have been trained in the various departments of the College.

Numbers of Students.—The following table gives the numbers of students attending classes during

the last three years:-

A. In attendance at lecture 1920.—Matriculated Non-matriculate	 ••	 	Men. 360 34	Women. 203 83	Total. 563 117
			394	286	680
