

FIG. 12.—*Fale* at Safotu, built by the Natives as a dispensary hospital. Figs. 13 and 14 show interior views.

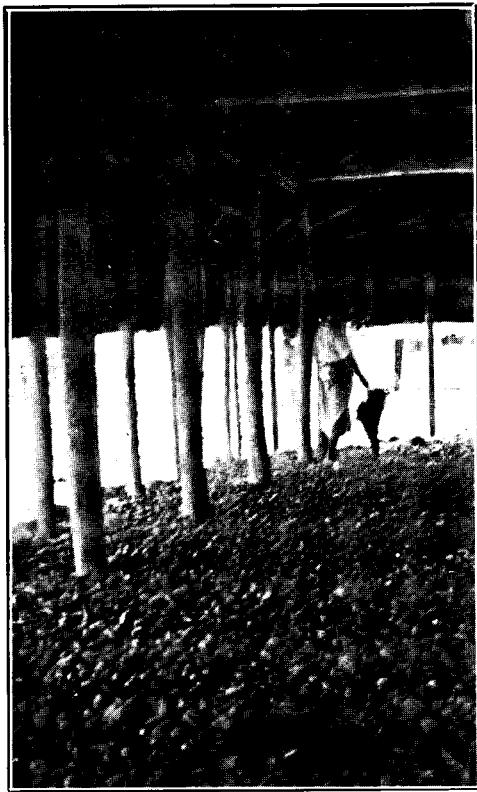

FIG. 13.—Interior of *fale*. Note floor of pebbles, which will be replaced by cement before *fale* is used as a hospital.

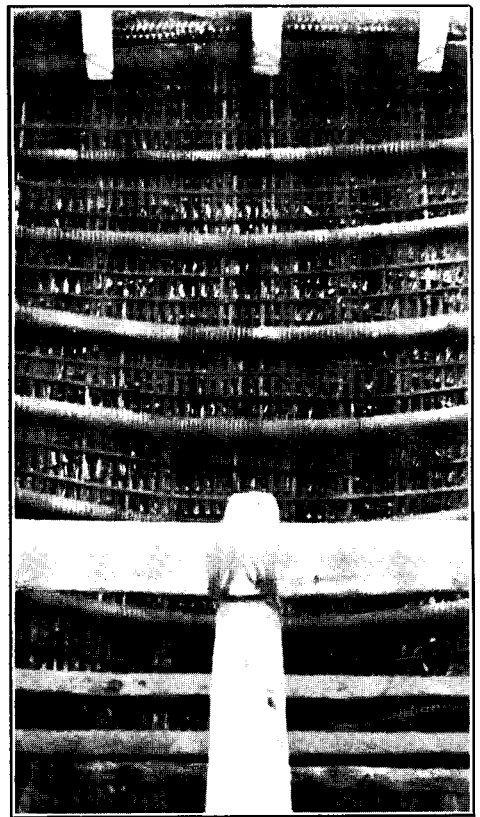

FIG. 14.—Roof of *fale*. No nails are used, the materials all being bound with *'afa*, a string made from the fibres of the coconut-husk.
