

Later in the same day the Second Committee had before it the report of the Supervisory Commission, and, after examining the details placed before it, decided to recommend the Assembly to pass a Supplementary Budget amounting to 597,777 Swiss francs. It was explained that the States members of the League would not be asked to provide any money additional to that required by the 1926 Budget, as it was expected that the increase referred to above would be more than covered by the contribution of Germany towards the expenses of the League for the current year.

The report to the Assembly is Document A. 13.
