

The Conference further suggests that such an arrangement might include a provision whereby the Trade Commissioners maintained in different parts of the Empire by the several Commonwealth Governments should, as occasion requires, be available to act as Liaison Officers for this purpose. The Conference considers that it should be made clear that such consultations are purely supplementary to, and not intended in any way to supplant, the method of direct communication already established between the central standardizing bodies.

(iii) GRADING AND STANDARDS OF AGRICULTURAL PRODUCTS

The report of the Sub-Committee, which is set forth as Appendix 2 to the Report of the Committee on Methods of Economic Co-operation, was approved by the Conference.

(iv) RESOLUTIONS CONCERNING INDUSTRIAL CO-OPERATION

This Conference, having examined the Report of the Imperial Economic Committee on Imperial Industrial Co-operation, finds itself in general agreement with the tenor of the Report.

The Report makes it clear that industrial production has developed and will continue to develop in the less industrialized parts of the Commonwealth. These developments involve changes in the economic structure both of the more industrialized and of the less industrialized countries; and the Conference notes with approval the view of the Committee that: "the object of co-operation is not, and must not be, to arrest change, but wisely to direct and facilitate its course."

It should, in the opinion of the Conference, be the object of any policy of industrial co-operation within the Commonwealth to secure the best division of industrial activities among the several parts of the Commonwealth and the ordered economic development of each part, with a view to ensuring the maximum efficiency and economy of production and distribution.

It is further the view of the Conference that the precise nature and extent of the co-operation to be achieved in any particular industry must largely depend upon effective consultation between those engaged or proposing to engage, in that industry in any two or more parts of the Commonwealth.

The Conference therefore recommends to the various industries in which conditions are suitable for the purpose, the desirability of making arrangements for such consultation at the earliest possible date; but it records its belief that such consultation, to be fully effective, should be conducted between responsible persons or bodies adequately representative of the industry in each part of the Commonwealth concerned.

The Conference further recommends that the Governments concerned facilitate and assist such consultations by all available means.

The Conference further recommends that, without prejudice to their liberty to determine their own general economic policies, the Governments of the Commonwealth should give sympathetic consideration to any proposals which may be directed towards giving effect to the principle of industrial co-operation and which may be put before them by responsible parties representing similar industrial interests in the parts of the Commonwealth affected. In this connection the Conference would draw attention to the importance of taking into consideration the interests of other parts of the Commonwealth which might be affected by such proposals.

(v) RESOLUTION CONCERNING FILMS AND RADIO

The Conference takes note of the suggestions contained in the Report upon Films and Radio submitted to it by the Committee on Methods of Economic Co-operation and commends them for the consideration of the Governments represented at the Conference.
