

1856.

House of Representatives.

PETITION OF ALEXANDER BROWNE.

Presented to the House of Representatives May 13, 1856, and ordered to be printed.

TO THE HONORABLE THE SPEAKER AND THE HOUSE OF REPRESENTATIVES IN PARLIAMENT
ASSEMBLED.

The humble Petition of Alexander Browne, sheweth—

That he joined the volunteers in Auckland on the 5th of June, 1845, and sailed for the Bay of Islands a few days after, destined for the Oauiwi (the Rebel's Camp) on the 1st of July.

That at the attack upon the pah he was appointed to convey a scaling ladder, in doing which he was wounded by a musket ball, which lodged under his right eye, and of which he has totally lost the use; besides which his head was fractured, several pieces of bone having worked out therefrom on various occasions.

That he was brought to Auckland a few days after, along with the wounded of the 58th regiment, and was attended by the different doctors then appointed over the hospital for the space of three months, during which period he received two shillings a day. At the general inspection of the wounded, the doctors not having discovered the ball, your petitioner was entered on the list of wounded, and reported to Government as having his vision impaired and a scorched face.

That your Petitioner then went to the bush to procure a living the best way he could, which your Petitioner did till volunteers were wanted for the Ruapakapeka, when he again joined under the command of Captain Atkyns, and was through all the campaign, and was at the end again discharged when it broke up.

That your Petitioner returned to his employment, working and suffering for two years, at the end of which period he was obliged to return to Auckland, and put himself under medical aid for a length of time, until his means were exhausted.

That your Petitioner then went to Dr. Johnson, then Colonial Surgeon, and had a certificate of his wound forwarded to Governor Grey, accompanied by a statement of his services from Captain Atkyns, to which your Petitioner never received an answer. That shortly afterwards your Petitioner went to the Governor in person, who sent him to Dr. Sinclair, whose answer caused your Petitioner to give up all hope of assistance from the Government.

E.—No. 3.
