## ANTARCTIC CALENDAR 1987

The 7th ANTARCTIC CALENDAR, in a new larger format (240x345mm folded) features 24 colour photographs from a wide range of Antarctic environments including the Ross Sea, the Dry Valleys and the Antarctic Peninsula. Wildlife, mountains, glaciers, icebergs and human activity are all portrayed. A map shows the photo locations. All photographs are by Colin Monteath, principal photographic contributor to the Readers Digest book 'Antarctica'. The calendar, available September 1986, comes with a durable cardboard envelope suitable for overseas posting.

\$9.50 each within New Zealand (price includes surface postage)  
\$10.50 each direct to all overseas addresses (price includes surface postage)  
Include sender's name with all gift orders

\* additional discount of 10% on orders of 5 or more calendars to the same address

\* ALSO AVAILABLE: SET OF 12 LARGE FORMAT COLOUR ANTARCTIC POSTCARDS
