

WHICH GREW FROM.....

WHICH?

Hi TRACKERS!
THIS IS KIWI OF THE 'K' TEAM BRINGING YOU A SPECIAL COMPETITION....
CHEEKY MAGPIE HAS SWOOPED 'N MIXED UP ALL THE BALLOON STRINGS...
CAN YOU LINK THE CATERpillARS TO EACH OF THEIR PARENT BUTTERFLIES?

Send your entry to:
Tracks Competition
P.O. Box 7115
WHANGAREI

The first correct entry drawn out of the bag on the closing date — the 31st March 1987 — wins one of those new-styled T-shirts as pictured on page 28 top right. Please send your T-shirt size (6, 8, 10 or 12). Entries are restricted to Forest & Bird Junior members under 13 years of age. The prizewinner will be published in the August journal.

Do you know how to tell the difference between butterflies and moths?

- _____ are generally more brightly coloured than _____
- _____ fly mostly at night whereas _____ usually fly in bright sunlight.
- _____ have small nobs on the end of their feelers whereas _____ have simple comb-like feelers.
- _____ spread their wings flat on either side of their bodies whereas _____ rest with their wings together over their bodies.

FOR ANSWERS, turn page upside down
(1. B/M, 2. M/B, 3. B/M, 4. M/B)

Help the caterpillar find its way to form a chrysalis.
