Announcing the magnificent new WORLD EXPEDITIONS 1987 HOLIDAY BOOK for fascinating holidays in out of the way places

Places featured include: Nepal, Everest, Arun Valley, Himalayas, Tibet, Japan, Alps, Thailand, Bali, Argentina, Galapagos, USSR, Lapland, Israel, East Africa

Soon the most interesting quality adventure holiday book will become available. We're inviting you to reserve your own copy by clipping the coupon.

Produced by World Expeditions (known before as Australian Himalayan Expeditions), it is regarded as the best collection of

Adventure holidays available in the world. Whether you are keen on highly active holidays to very far away places, or prefer

something easy going but interesting, there is sure to be something in this for you.

The exotic destinations are vast in number but do include Exploring in Ecuador, Hiking in Greenland, Sea Kayaking in Fiji, or Camel Trekking in the Sahara.

We know from people who booked last year that the Bicycle Tour in China is both popular and a simply wonderful trip.

At Venturetreks we have been putting together special interest and adventure holidays for over fifteen years. In our opinion this collection of holiday options is quite superb and we totally endorse the excellent organisational skills of the company behind them.

So don't hesitate. If these destinations interest you

we know that there will be a holiday to suit you whether you want to be active or just take it easy.
