

# Richard Henry of Resolution Island

A BIOGRAPHY BY  
**SUSANNE AND JOHN HILL**

*Published in association with the NZ Wildlife Service*

This first full biography of Richard Henry, generous in its quotations from Henry's own writings, is fully illustrated throughout with drawings, maps and photographs, and eloquently tells of the character, hopes, disappointments and achievements of one of New Zealand's first conservationists.

Henry's observations and descriptions of Dusky Sound, Fiordland, his close relationship with its wildlife and his extraordinary efforts to save kakapos and kiwis from extinction, have been an invaluable contribution to wildlife conservation in New Zealand.

## WILD ORCHIDS TOUR

**A first in New Zealand**

Discover a dazzling array of the widest possible range of NZ orchids on a 9-day journey visiting the most spectacular regions of the South and Stewart Islands. The beauty of our orchids is well known but few lovers of these delightful flowers know where to find them. Mark Hanger, botanist, and leader of many successful nature tours throughout the South Island will show you the grandest displays of these the most enthralling of our native flowers.

**VISIT:** Hanmer Springs, Buller, Arthurs Pass, Porters Pass, Dunedin, Catlins, Stewart Island, Eglinton Valley, Te Anau

**DEPARTS:** Christchurch 25 November 1987. Limited to just 12 lucky persons so be quick.

official sponsors to the N.Z.  
National Parks Centennial

## 100 YEARS OF NATIONAL PARKS

**14 DAY  
SPECIAL CELEBRATION TOUR**

This is without doubt, the most comprehensive nature tour available in New Zealand. Nowhere else in the world will you find a more spectacular diversity of landforms, wildlife, and plant communities in a smaller geographical area. From wet sub-tropical lowlands to soaring alpine peaks to awe-inspiring fiords to dry sub-continental tussocklands to active glaciers, it's tailor made for nature study.

Whether an introduction to New Zealand nature study or a once-in-a-life dream trip you will not be disappointed.

**VISIT:** All South Island National Parks (incl. Paparoas) and Marlborough Maritime Park.

**ENJOY:** The special features that make each park unique.

**DEPARTS:** Christchurch 23 March 1988.

**STOP PRESS**—a few seats are still left on our ever popular 10 day **ALPINE WILDFLOWERS TOURS**. Enjoy an unbeatable variety of alpine flowers. Visit the Southern Alps, Mount Cook, Remarkables, Old Man Range, Hollyford, to name just a few. Trips depart Dec 5, 1987 and Jan 19 1988.

This book has been designed for use in the practical identification of New Zealand's common birds. More than eighty finely detailed colour portraits present a clear image of each of the species described. This handbook covers a wide range of birds, both native and introduced, and a variety of habitats.

**\$19.95**

Brian Ellis's book tells how and where to find birds, how to identify them, how to make and keep written and sound records. Dozens of birdwatching localities throughout New Zealand are identified. Essential reading for all birdwatchers.
