

FIVE CLASSIC POSTERS

ALPINE • WETLANDS • FORESTS
• TUSSOCKS • MARITIME

Alpine

Forests

Wetland

Maritime

Tussock

As part of New Zealand's celebration of the Centennial of National Parks, Forest and Bird has produced five high quality posters, each exploring a natural theme – alpine, wetland, forest, tussock and maritime.

Produced on high quality paper, these magnificent posters will be sought-after momentos of the Centennial. The dramatic Snowball Glacier in Mt Aspiring National Park, the bronze tints of a wetland in front of Mt Cook, golden tussocks in Tongariro National Park, a northern rata in dense forest of Urewera National Park and an evocative sunset mirrored in rock pools, Motuihe Island, Hauraki Gulf Maritime Park – each poster depicts the diversity of our natural heritage.

Buy a set or buy them singly. Forest and Bird will deliver your posters in a strong cardboard cylinder to ensure they remain in good condition in the mail.

Only \$17 a set (inc GST and postage and packaging) or \$6 each (inc GST and postage and packaging).

See order form below.

ORDER FORM

(for calendars and posters)

Some of the world's greatest

Nature Journeys

are right on our own doorstep

BIRD ISLANDS OF THE GULF

Here's your chance to explore these fascinating Islands which are part of the Hauraki Gulf Maritime Park and also home to a rich diversity of unique wildlife. Eight days live aboard cruise. Departs Auckland, November 21.

CHATHAM ISLANDS

Intrinsically linked to New Zealand you have probably read about these Islands, seen them on television and wished for a way to visit them. Here's your opportunity. 10 days includes Pitt Island departing January 9 from Wellington.

Other N.Z. Nature Journeys include: Stewart Island, Sub-Antarctic Islands and Fiordland Coast. We also offer worldwide destinations including Ecuador and Galapagos Islands, Indonesia, Kenya and Tanzania plus others.
