Discover the hidden Coromandel

PAN FOR GOLD
COMB GOLDEN BEACHES
SEEK GEMS AND STAY AT A FEW

All in just five days, on Venturetreks' unique new Coromandel peninsula adventure.

You'll spend five days, four nights experiencing all the Coromandel you can handle, in the knowledgeable hands of one of Venturetreks expert guides.

Peninsula: From the Latin *paene* (almost) and *insula* (island). The Coromandel's isolation from the main bulk of the North Island gives it unique environmental and historical significance.

Take in natural history. Beaches. Estuarine and sea marine life. Bushwalks. Follow in the footsteps of the gold seekers. View Kauri dams.

You'll see all facets of the fascinating Coromandel in minute detail. You'll stay in accommodation of the highest standard. And travel the peninsula by luxury coach.

You'll enjoy a unique pan-peninsular experience with a small group of like minded Venturetrekkers on our Coromandel discovery tour.

All meals are included in this new, guided Coromandel tour, with departures scheduled from November 1988 to March 1989.
