Diving

Chatham Island forget-me-not

Only two hours flying time to the East, Safe Air can show you the excitingly different Chatham Islands. Although civilisation has pushed the margins of its forests back, the Islanders are now determined to preserve the special areas that remain. This is one reason why the Chathams now provides a unique habitat for a wide range of special plant

and bird species.

Nowhere in the world could getting away from it all be so quickly done or so easy to do. A short comfortable flight from Wellington or Christchurch in the huge Argosy; followed by a scenic drive from the airport to one of the three accommodation houses in town and you're in the middle of the last frontier.

Then it is up to you to explore or simply relax and enjoy.

To start your Chatham Island adventure, book with –
Safe Air Ltd
Blenheim Airport
