Subantarctic Voyages 1990-91

"The Southern Ocean is so vast, and the breeding places for birds and animals so few; that the concentrations of wildlife are both enormous and astounding." Conon Fraser.

We are the Subantarctic specialists, and the "Tradewind" was specifically chosen for this unique area. She is a magnificent Topsail schooner, launched in Europe in 1911, and now totally New Zealand owned and operated. Join the crew of the first Square-rigger for almost a century to voyage to the islands of Macquarie, Campbell, the Auckland Group, and Stewart. The emphasis is placed on maximum shore time, and we spend not hours, but days at each major island. For further details, contact:
