

So you want to save the world but don't know where to begin...
Then buy Forest and Bird's
new publication

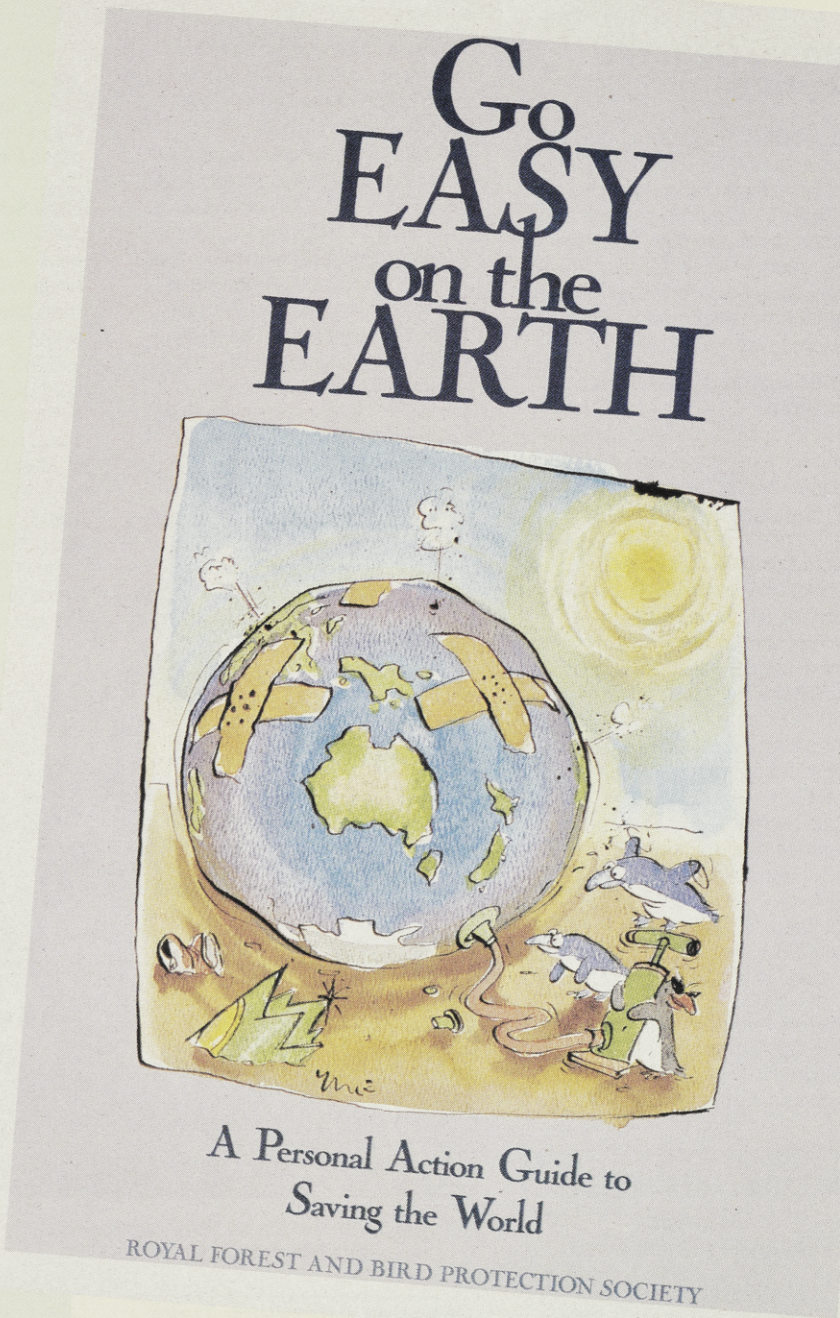

GO EASY ON THE EARTH

So much has been talked about being "green" in the last year that Forest and Bird decided to do something about helping people look after the environment. The result is **Go Easy On the Earth**, written by education and extension officer Andrea Lomdahl with cartoons by Mike Yule.

In it you'll learn about:

- Energy conservation
- Pollution Solutions
- Recycling
- Recipes for Natural Pesticides
- What **you** can do now
- What you should be getting **the Government** to do

Only \$7 a copy.
Printed on recycled paper.
