FOREST & BIRD
HEAD OFFICE

Cover: A dazzling array of forest and marine wildlife adorns the Forest and Bird Head Office at 172 Taranaki Street in downtown Wellington. The mural, created by Chris Finlayson, displays giant-sized images from the kauri and rata of the north, to the takahe and Mt Cook buttercup of the south. There is even one of New Zealand's oddities - a carnivorous land snail from North West Nelson. Formerly the Wellington City Mission, the head office premises also contain a shop and information centre - "Branches". Forest and Bird head office staff welcome visits from members.
