## HELP!

**FIORDLAND CRESTED PENGUIN**  
*Eudyptes pachyrhynchus*

Recent studies have shown that the Fiordland Crested Penguin is probably the world's rarest. We desperately need more information to monitor this species. The Zoology Department of Canterbury University and Southern Heritage Tours are currently involved in surveying the known range of this species. You can help by joining this survey. We are looking for 15 persons to purchase a berth on our charter vessel, act as field assistants and enjoy a holiday.

This year's survey will operate from August 12 - 20, 1992 in remote Preservation and Chalky Inlet within the Fiordland World Heritage Park.

**Further details contact:** Southern Heritage Tours, P.O.Box 22, Waikari, Christchurch, North Canterbury Tel. 03)314 4393.

Please send details of survey to:

## Take Hallmark...leave only footprints

### DUO

Brilliantly versatile, this 2-person tent has twin vestibules and entrances from both sides of the tent offering separate access for both people, as well as individual pack storage. There's no need to disturb your partner. The Duo is clearly the best tent available in its class.

### PHOENIX I & II

Packs for the serious trumper, the Phoenix I & II offer these unique features: large sac with a zipped division giving access to sleeping bag compartment which also has access from outside the pack. Large contoured front and twin side pockets avoid snagging. The weatherproof elasticated gusset lid includes a map pocket and separate gusseted top pocket. Provision for ice axe.

### OUTWARD BOUND

A lightweight tramping or travel bag, the Outward Bound is designed for people wanting to try a down bag for the first time. It features 800gm of 50/50 down in box wall construction, full length zip and contoured hood. The rectangular shape can be zipped out completely to form a duvet.

**TOGETHER WE'RE GOING PLACES**

Available from leading outdoors stores.  
 Manufactured in New Zealand by Sunshine Ellis Ltd.,  
 Auckland — Christchurch — Mosgiel.
