NEW ZEALAND'S EXTINCT BIRDS

by Brian Gill
paintings by Paul Martinson

57 species of New Zealand's weird and wonderful birds are now extinct. Here, Brian Gill describes each species and discusses their causes of extinction. Paul Martinson has done considerable research from early descriptions and illustrations, bone fragments and fossils, to produce twenty-five stunning paintings. Reproduced in full colour they show how some of these species may have looked.

RANDOM CENTURY

New Zealand's Subantarctic Islands Antarctica • South Georgia

"The Southern Ocean is so vast, and the breeding places for birds and animals so few, that the concentrations of wildlife are both enormous and astounding." Conon Fraser *Beyond the Roaring 40s*

Exclusive small party ship-borne expeditions offering an unparalleled opportunity for superior coverage of the superb wildlife and scenery available in these remote regions. We operate over the summer season, January to March, with both sailing ship and motor vessels. Voyages are from 11 to 28 days, starting at \$1595 USD.

For free colour brochures and further details from the Southern Ocean specialists:
Discovery Charters (South Seas) Limited, PO Box 1182, Dunedin, New Zealand. Phone/Fax (03) 453-6986.

The Himalayas

The 'Garden of the Himalaya' and 'the best kept trekking secret in the Himalayas' is how the authoritative South Asia Handbook describes the Garhwal Himalaya. Rich forests of oak, pine, rhododendron, bamboo and silver birch, alive with bird and animal life, abound in the Nanda Devi region and with the magnificent peaks, picturesque villages and friendly unspoilt local people combine to make this marvellous trekking country. **Himalayan Travellers** has 4 departures in 1992 for discerning travellers. Moderate walking (age no barrier), excellent value, places limited. The 29-day trips include 15-16 treks plus other highlights. Send for details to **Himalayan Travellers**, Box 2618, Wellington or contact Dr William Whittaker (04) 386-3325.
