

# Antarctica

## not secure yet

*Antarctica has moved out of the news since the signing of the historic Environmental Protocol in Madrid last October.*

*Many people think that the long struggle to protect the continent is over, the goals of the past decade achieved and Antarctica saved. But, as ALAN HEMMINGS explains, it is too early yet to celebrate.*

ALAN HEMMINGS

*Human beings have taken the first steps towards a new relationship with Antarctica, but it isn't over yet.*
