

# The Kiwi can't survive on its own account.

## Can it use yours?

### The Kiwi could be extinct in our lifetime.

It's unthinkable but true. According to the Threatened Species Unit of the Department of Conservation, our national bird, the Kiwi, could become extinct in our lifetime...if we don't take positive action.

In response to this threat, the Department of

Conservation, supported by the Bank of New Zealand and the Royal Forest and Bird Protection Society, mounted the Kiwi Recovery Programme in 1991.

### Support Kiwi recovery.
