

# Children's Books from Reed

NATURE

## The Kea

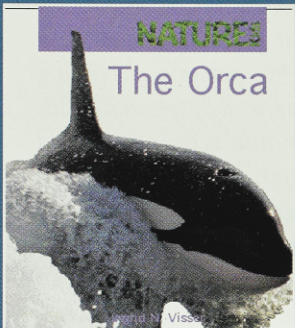

NATURE

## The Penguin

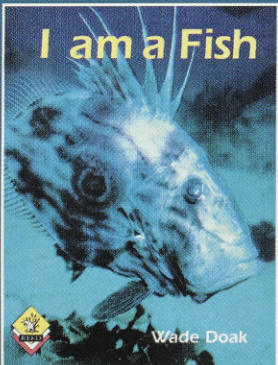

NATURE

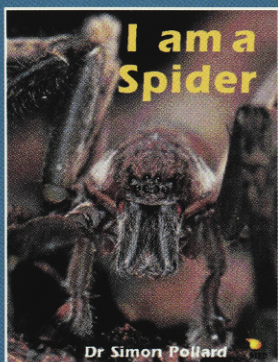

## The Orca

## I am a Fish

## I am a Spider

The Nature Kids series is aimed at 5-8 year old children, and is designed to introduce popular aspects of natural history to a younger age group. The series has been warmly welcomed by teachers, librarians, the media, and – most importantly – by children.

**NATURE**

Each book is \$12.95

### The Kea • John Lockyer

DID YOU KNOW that kea are called the 'clowns of the mountains'? In this book you can explore their cheeky behaviour, see where they live, study their babies, find out what they eat and see just how close they get to humans!

### The Penguin • Barbara Todd

DID YOU KNOW that seven types of penguins live in New Zealand? This includes the Blue penguin, which stands at only 35–45 centimetres tall. Find out where penguins live, what they eat, the differences between them and how they look after their babies.

### The Orca • Ingrid Visser

DID YOU KNOW that when an orca goes to sleep half of its brain stays awake? Find out how long orca can breathe underwater, what they eat, what makes each orca an individual and how orca babies are brought up.

### The Kiwi • Ingrid Visser

Did you know that kiwis can smell food that is three centimetres underground? They are also very noisy and whistle, squeal, chortle and meow like a cat!

### The Weta • Ingrid Visser

DID YOU KNOW that the giant weta is the largest insect in New Zealand? Or that some weta can weigh as much as a small bird? Find out more amazing facts about New Zealand's scariest looking insect.

### I am a Fish • Wade Doak

Meet fourteen fish commonly found in the waters around New Zealand. The fish tell their own stories and explain what makes them so special. Find out about the unique way that fish survive in their watery world. \$19.95

### I am a Spider • Simon Pollard

Meet 18 spiders commonly found in New Zealand and some of their relatives from other countries. Find out where the spiders live and how they survive. Learn about spider classification, senses, spider silk and venom, as well as some fascinating spider myths and legends, including the real story of Little Miss Muffet. \$19.95

This series, for 8-12 year olds, focuses on some of the more fascinating aspects of New Zealand's natural heritage. Superb full colour photographs supplement the informative texts.

NEW ZEALAND  
**WILD**

Each book is \$14.95

### Whales and Dolphins • Barbara Todd

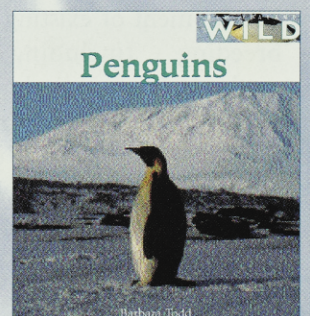

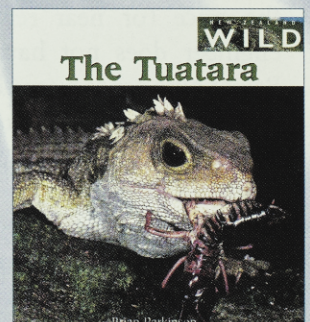

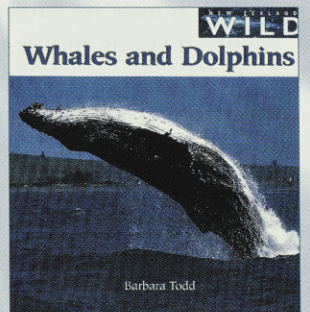

Pull-out boxes contain important 'cool and amazing facts' about the different whales and dolphins found around New Zealand.

### The Tuatara • Brian Parkinson

Find out about the tuatara's beginnings, survival, as well as breeding habits and behaviour, socialisation, and where it lives.

### Penguins • Ingrid Visser

Find out about what penguins look like, how they live together, and share parenthood. The book looks at both penguins that live in New Zealand and other penguins around the world.
