*The
World's
Best*

TO the uninitiated the Tiled Roof immediately suggests expense; WINSTONE'S well-known Marseilles Tile costs little more than common iron, yet greatly adds to the value of the home, making it cool in summer, warm in winter, noiseless in wind and storm, giving that refined, comfortable and artistic appearance so lacking in the old style roof. The Old English Rosemary pattern tile is also made at Taumarunui and adds a peculiar charm to the home. The artistic New Zealander delights in the blending of the various colours now available in WINSTONE'S Tiles: Red, brown, green, chocolate and terra cotta are available, and the blending together of suitable colours gives a charming effect. Every roof guaranteed, quotations free anywhere in New Zealand.
