What a lot  
**VIROL**  
could do for  
*your*  
child!

Many mothers would probably be amazed at the extra strength and vitality their children would develop from a course of Virol. Far too often, parents do not realise that a growing child requires more than ordinary foods—no matter how sound an appetite may seem. For full and steady development, kiddies need that "something extra" that only Virol can provide.

Virol gives, in a balanced and easily digestible form, all the different elements that children need for healthy growth and protection against illness.

Virol fortifies the system wherever it is weakest, and gives an all-round increase in fitness from the very beginning. Why endure any further doubts

about the children's health? Put them on Virol and watch Virol build sound and permanent strength.

Start now, and give your children a Virol constitution.
