
WIRELESS IS *A Key* INDUSTRY

In the commercial and industrial world, wireless is of national importance, being closely allied with our overseas trading, the press, international affairs, aviation, shipping and all arms of defence.

The industry was pioneered by Amalgamated Wireless and since then the Company has been foremost in every phase of its development.

In the field of entertainment programmes broadcast through transmitters designed and installed by A.W.A. at Stations 2YA, 1YA, 3YA, 4YA, are listened to in many New Zealand homes through Radiola receivers—also manufactured by A.W.A.

A.W.A. is wholly self-contained in the manufacture of every type of wireless equipment and research in A.W.A. Radio Laboratories assures continuous progress.
