## WHAT CHILDREN NEED!

Is your child's weight right for his age? Is he filling out as he shoots up? Is he bright in school—active—rosy-cheeked—alert?

If you want to see your child gain in every way give him Thyrodone Emulsion. It not only adds 70 per cent. food energy to children, but with its content of organic iodine corrects and prevents incipient glandular trouble.

That is the big feature of Thyrodone Emulsion which renders it so superior to ordinary emulsions. Thyrodone Emulsion not only contains all the vitalising properties of a high-grade emulsion, including cod-liver oil, creosote and hypophosphites of lime and soda, but it also contains the rich organic iodine and other life-giving minerals and vitamins of Thyrodone, the famous sea-food vitality tonic.

Thyrodone Emulsion not only builds up healthy bodies and sound nerves, but corrects all tendency to glandular troubles and faulty metabolism.

Very flattering reports are being received from medical men as to the results they are securing with Thyrodone Emulsion.

Thyrodone Emulsion is not only very palatable to take, but is decidedly economical, as the dosage is in teaspoonfuls—not tablespoonfuls.

Ask your chemist about Thyrodone Emulsion.
