

What will guide your choice of a Light Car?

... then **FORD** is your logical choice

Actual performances on every type and condition of road in New Zealand have proved the Ford "Eight" an outstandingly economical light car. Even more important than its excellent petrol consumption of 40-45 miles per gallon, the Ford "Eight" gives better than 20,000 miles to a set of tyres and a really low general up-keep. Remember too, that the Ford "Eight" always commands a high resale value. Choose a New Styled Ford "Eight" for true economy and everything you want in a light car.
