GIVE BETTER RECEPTION!

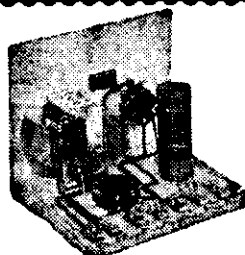

LEKMEK LINE FILTER

Designed for use with electrically-operated radio receivers. Simply fits between the receiver and the wall plug. It will definitely stop all man-made static entering through the A.C. mains.

The "AERITROL"

Cat. No. ZA1 27/6 Post Free.

A safe, scientific device which uses no electricity and costs nothing to run. Works on all types of receivers. It increases volume equivalent to adding an extra valve; reduces noise level and interference; separates interfering stations; increases volume of weak stations; eliminates aeriols and controls volume from powerful local stations. Installed in a few minutes.

And Here's One For The Boys!

The Improved HIKER'S ONE

A single valve battery set that will give astounding reception of main N.Z. and many Aussie stations. Easy to build! Cheap to operate! Just watch his eyes pop when he sees this in his stocking! Complete Kit Cat. No. ZK29 (without batteries and headphones) 28/6

Can be supplied, completely assembled in cabinet, with valve, batteries, headphones, and length of aerial wire for £3/1/6.
