## News From Daventry

Owing to the advancing season, reception from Daventry in the middle of the day is not satisfactory for re-broadcasting. In consequence the transmissions formerly broadcast by the National Stations at 9.45 a.m. and 11.30 a.m. have been cancelled. The following is the schedule of transmissions:

### MONDAY to SATURDAY—

- 6. 0 a.m. Full bulletin
- 7. 0 a.m. Broadcast of bulletin recorded at 6 a.m.
- 12.30 p.m. Broadcast of recording of latest news available
- 4. 0 p.m. Full bulletin
- 6.15 p.m. Full bulletin
- 9. 0 p.m. Full bulletin
- 11.30 p.m. Full bulletin

The re-broadcasts on Sunday are the same as on week-days with an additional broadcast of the recorded 6 a.m. bulletin at 8 a.m.

The four National Stations will therefore be remaining on the air, in the meantime, continuously from 6 a.m. to 12 midnight.

## RADIO REVIEW

Address all Communications — P.O. Box 437, DUNEDIN.

### Verification from Thai

The first official use of change of name from Siam to Thai which we have observed is contained in a verification from Bangkok dated September 9 and addressed to Ronald Murphy, Auckland. The letter states:

"Your letters with reports of the receptions of Station HS8PJ and HS6PJ have been received with thanks. In reply we are happy to say both your reports have been checked and found correct in every respect. We are out of stock of QSL cards, so please accept this letter as verification. We shall be sending you cards in due course of time. We enclose a few used stamps of Thailand and hope that they will be of some use to you. (Signed), Nai Soontern Hongladaromp, Overseas Section Publicity Bureau.

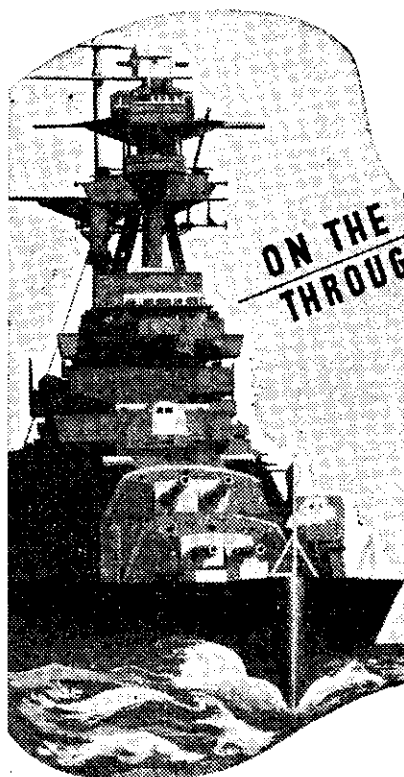

### From Hunterville

A Hunterville reader submits this comment on his reception:

"I have noticed that 20 metres has fallen off somewhat, but stations on and around 28 metres are coming in well in the morning. HP5A Panama City has a good signal in the morning, and closes at 7 a.m. approx. JZK, JZP, Japan, are both heard well, as are DJB and DJA, Zeesen. Can you identify an 80 metres station approx. 5.6 megacycles which is heard daily about 7.15 and peaks about 8 o'clock and fades at 8.45? Usually a lady announcer is heard, but have never heard an English session."

(The station is believed to be Russian, but as yet have no definite information. Your American should be WPIT. WTIC is a broadcast band station on 1040 kc. — DX Ed.)

IN THE VITAL SERVICES BRIMAR "DOES ITS BIT"

ON THE SEAS BRIMAR COMES THROUGH WITH FLYING COLOURS

The pounding of heavy seas—the thunderous vibration of huge guns—these are the daily conditions under which BRIMAR comes through with "flying colours."

Reliability is just as essential for pleasure as for protection. Fit BRIMAR the "ten times tested" valve in your radio and be sure of long life and trouble-free service at all times.

Obtainable from all Radio Dealers
