

# JOBS IN PEACE TIME

**"THE NATION WHICH WISHES  
TO BE GREAT MUST PLACE  
ENTERPRISE AHEAD OF  
SECURITY—"**

Achievement is not something which happens of its own accord. Behind every great musician, artist, or scientist, is the encouragement given by those with vision . . . the same vision which, coupled with daring and initiative, enables men to grasp and bring to realisation a new enterprise which benefits not only themselves and those around them, but the nation as a whole.

*" . . . We must regard innovators, experimenters, starters of enterprises, as peculiarly useful citizens and go out of our way to furnish them a congenial and hospitable environment . . . We must strive to increase the proportion of our citizens who become experimenters and innovators and who make their living, not by getting on someone else's payroll, but by creating payrolls of their own."*

SUMNER H. SLICHTER,  
Professor of Economics, Harvard University.

## **H. C. URLWIN LTD.**

Pioneered the Plastic Industry in New Zealand, therefore making possible the mass production of Electrical Wiring Devices and Appliances.
