We've had a letter from a veteran B.S.A. Bicycle owner:

He bought his B.S.A. Bicycle in 1912; he has averaged 7 miles a day ever since; he weighs 170 lbs; and now after "only" 75,000 miles he complains that the oil caps at the point of the pedals are worn out and he's getting oil on his trousers.

Yes — it's hard work trying to wear out a B.S.A. Bicycle.

B.S.A. Bicycles are scarce now, but after the war there will be just the B.S.A. machine you want, leading the field in design and reliability.
