## Why not change to a NURSING CAREER?

What future does your present job hold for you?

Why not change to nursing *now*—you can do so up to 30. You ensure for yourself work of the greatest interest and national importance, and open up a future full of possibilities of travel, of promotion, and intense human interest.

When peace comes, nurses will play a most important part in the building of a 'new world'.

On entering a hospital, a nurse receives, as part of her regular duty, a full practical and theoretical training. She receives free board, uniform and laundry, in addition to her salary, and regular fully paid holidays. And at all times varied recreational facilities are available to her.

Nurses are always needed—today more than ever because of the development of Hospital and Health Services.
