

WHEN TOMORROW COMES . . .

A brighter and happier New Zealand will come from the war research and production of today. The scientific and mechanical resources of the United Nations are now concentrated on the defeat of the enemy. With Victory, their deadly purpose will be translated into new wonders to promote comfort, convenience and entertainment. Begg's are already planning to enable New Zealand homes to enjoy modern scientific and industrial developments.

The sole N.Z. agencies that Begg's already possess are an indication of the range and quality of goods Begg's will supply in the post-war world. They include Philco Radio, Radio-Phonographs and Refrigerators, Hammond Electric Organs, the World's best Pianos and Minipianos, Band Instruments, Connor and Princess Washing Machines, Hamilton-Beach Electric Food Mixers, Princess Vacuum Cleaners, Morphy-Richards Automatic Electric Irons, Schick Electric Shavers, Western Electric Hearing Aids. These names indicate the quality and scope of Begg's offerings for the post-war world.
