**WHY
BSA
BICYCLES
ARE
LIGHT**

Streamlined fork crown, tapered backstays, featherlight front forks, and many other important points are only half the reason why B.S.A. Bicycles are light. The other half reason is more important. It is the way B.S.A. does it. Because it is design and workmanship that make B.S.A. Bicycles light enough for a woman to go shopping on — and strong enough to be used by the armies of the United Nations. B.S.A. Bicycles are difficult to get now, but your dealer will try to help you. After the war there'll be all the B.S.A. products you want, leading the field in design and reliability.

Colman's Mustard is most appetising when it is freshly prepared. Therefore mix only a little at a time and so avoid waste.
