DO YOU KNOW?

**KNIGHT WITH TEETH OF
IVORY**—in 1585 it was recorded
in Belgrave's "Mathematical Jewel"
that the author's nephew, Sir John
Belgrave "caused his teethe to be drawne oute
and after did sett ivory teethe in agayne".

FIRST TO TAKE ETHER—in 1846 Eben
Frost asked Dr. W. T. G. Morton to pull his
teeth quickly and painlessly. Morton, dis-
coverer of ether, explained the facts of ether
and its dangers. Frost agreed, and lived to
be the first to take ether.

MAKES YOUR MOUTH FEEL SO CLEAN
Kolykos removes food deposits, helps prevent tooth
decay. And you can't beat Kolykos for economy. Half
an inch on a dry brush . . . that's all you need.

Colman's Mustard is most appe-
tising when it is freshly prepared.
Therefore mix only a little
at a time and so avoid waste.

"KEEP IT DARK —IT'S A BSA!"

She's lucky. She's just got a brand new B.S.A. Bicycle. Naturally she asks her friends to keep this a secret; with such a rare prize she wants to be the first to spring the surprise on her family and friends. Wartime restrictions require all B.S.A. bicycles to be black. But when peace comes they'll soon assume their true colours again. Then for beauty of appearance and performance the only rival to your post-war B.S.A. will be another made by the same famous firm.

Some more B.S.A. bicycles are now coming into the country. Ask your dealer if he has one available for you—you may be lucky. Or—put your name down and be sure of it when it arrives.
