

When Mary  
went to stay with Sue  
She wished she'd  
**LUXED** her undies  
too!

OF COURSE you Lux-ed your summer undies every night. But what about your winter ones? They need frequent Lux dips, too, you know. Any garment worn next the skin absorbs perspiration—and perspiration soon causes havoc with precious things. Don't take chances! Lux that perspiration out! Lux is gentle. No hard rubbing when you use Lux.
